

CALENDAR OF TRAINING PROGRAMMES

2020 – 2021

REC INSTITUTE OF POWER MANAGEMENT & TRAINING
of

REC Limited

(Formerly known as Rural Electrification Corporation Limited)

(A Government of India Enterprise)

About REC

REC a government of India central public sector organisation was established in 1969 to take ahead the cherished dream of government to establish a strong foundation of robust power sector to strengthen the emerging economy. During the time of severe drought, the leaders sought to reduce the dependency of agriculture on monsoons by energizing agricultural pump sets for optimized irrigation. Thereafter, we have ventured into newer paths and expanded our horizons to emerge today, as a leader in providing financial assistance to the power sector in all segments, be it Generation, Transmission and Distribution.

As a Navaratna company under the administrative control of the ministry of Power, we have been rated 'Excellent' in terms of the MoUs signed with the Government for 24 consecutive years. We found our business with market borrowings of various maturities, including bonds and term loans apart from foreign borrowings, on our own. Domestically, we hold the highest credit rating from CRISIL, ICR, IRRPL and CARE and internationally we are rated at par with the sovereign ratings. Under the discerning leadership of highly qualified and experienced professionals, which has effectively harnessed the individual talents of all our employees, we have maintained consistent profit margins and paid dividends each year since fiscal 1998. We have thus propelled ourselves to a net worth of over Rs 34000 Crore.

We take due cognizance of the fact that we owe our stupendous success to our customers, the unflinching commitment of our employees and our countrywide presence through 25 offices which ensures easy accessibility. Having bolstered our share in the country's total power capacity, we are poised to help build a sound infrastructure to provide affordable, accessible and sustainable power.

VISION

To reach, educate, inspire, nurture, enlighten and energize power engineers/managers and strive for quality improvement in human resources for achieving higher productivity.

MISSION

To build an institution of global excellence for human resources development of power sector to share its experience, expertise, and enlighten the managerial personnel of power utilities.

MESSAGE FROM CHAIRMAN AND MANAGING DIRECTOR

Achieving the objective of providing 24x7 “Power for All” by 2022 and to raise the country’s per capita consumption from 1181 kwh to the level of world average at 2430 kwh, India needs huge investments in the backbone power sector. Sustainable and environmental friendly generation mix and improving the sector efficiency is the need of an hour. This is in line with the commitment given voluntarily by India to the international community to reduce the emissions to the level prevailing in 2003 and reduce it further by 5% by 2030.

To mitigate these challenges, the Government of India has taken up several initiatives including diversification of fuel resources for power generation, like contemplating 40% of power generation through renewable energy sources by 2025, improving the efficiencies and operational standards of entire gamut of power sector to be on par with developed countries. Special initiatives for reduction of AT & C losses including pilferage and supplying quality power by improved metering infrastructure with central funding. Further, Ujwal Discom Assurance Yojana (UDAY) has been introduced in order to reduce the debt burden of Discoms and thereby improving their financial health facilitating better investments in the power sector linked with achieving certain system standards. The ongoing reforms in the area of tariff, amendments in electricity act, development of real-time market are aiming to strengthen the DISCOMs, the weakest link in the power chain Smart grid concept is being promoted to squarely meet the growing urbanization and changed aspirations of public seeking cleaner power.

To achieve the above aspirations, the power sector needs to be toned up in all its areas with special focus on nurturing and developing human resource competencies to match the emerging needs. Human Resource with right attitudes and aplomb is an important asset of power sector to adopt new technologies, without which the goals set will remain an unfulfilled.

With its four decades of experience, RECIPMT has been always in the forefront in organizing training programmes to enhance the knowledge and update the skills of the manpower. It has always lived up to the aspirations of power utilities by making training truly rewarding, leading to enhanced productivity. This Year, in COVID Scenario, every organization is struggling with unique challenges of working and learning with social distancing. Though e-learning cannot fully replace legacy of classroom learning, RECIPMT has also introduced this year a blend of class room and internet based learning programme to the values customers so that in spite of challenges learning will continue. Hope RECIPMT will uphold its tradition in the year 20-21 also.

Shri Sanjeev Kumar Gupta
Chairman & Managing Director, REC Ltd.

FROM THE DESK OF DIRECTOR

Power is the harbinger of progress and capable of changing the fortunes of any country. Realizing the same, Electricity Act 2003, an instrument of reforms in the power sector, laid path of progress for providing power supply of quality, Continuity and Reliability. Meeting the demand in full at affordable price for 24*7 supply to nation is in the way. The off shoots of Electricity Act 2003, the National Electricity Policy have made adequate provisions to realize the objective in steps in a comparatively short period, availing private participation and funding. In this process, several policies and practices followed till then were revised drastically, for effective and faster realization of the objective.

Government of India has brought in several schemes like RGGVY, RAPDRP, IPDS, DDUGJY, SAUBHAGYA, etc., for electrification of 100% villages including rural houses, strengthening the rural and urban area networks and loss reduction and UDAY scheme towards relieving DISCOMs of their loan burden with interest there on so that utilities can make higher investments in system strengthening and partly funded them, making it easier for utilities to implement them without any hassles. This helped in achieving 100% village electrification and household electrification. But the sector has miles to go towards “sustainable 24X7 energy for all” from “connection for all” The sector is focusing on unfulfilled targets like T&D loss reduction to 15.5% from the present 21.5%, besides raising the system standards to the level of advanced countries, enhancing system efficiencies and meeting the changing consumer aspirations, adopting global technologies and appliances. Normal generation plans with commensurate budget and special plans to ensure 40% of power generation through green energy are devised to reduce pollution and rate of fossil fuel consumption in the country.

Inter-connecting transmission schemes are planned for early completion at competitive prices. Policies are announced and funding is provided for encouraging DSM and energy conservation measures to reduce demand considerably. Though these initiatives will help in meeting the likely power demand, long-term supply-side measures such as advanced technologies in renewable power integration and enhancing generation efficiencies of all modes will be important consideration. Since most of these problems are technical oriented and lasting since many years, resolving them is of a very tall order requiring comprehensive state of the art technologies to be adopted for economical and faster solution, with a special emphasis on skill development of the operating personnel, through subject specific training programmes, motivation and positive attitudes.

RECIPMT has etched for itself a niche being in forefront in fulfilling the skill development needs of the power sector with remarkable module selectivity based on the needs of the times and their periodical up-gradation all of which have been well received by the utilities time and again. We are very happy to bring out its annual training calendar for the financial year 2020-21 in its endeavor to remain at the top among similar organizations. Hope RECIPMT will enhance its patronage.

Santosh Kumar Sahu
Director RECIPMT

ABOUT THE INSTITUTE

REC Institute of Power Management and Training (RECIPMT) established under the aegis of REC Ltd a CPSE under Government of India is a premier Power Sector Training Institute, Accredited by Central Electricity Authority (CEA). RECIPMT is dedicatedly working for human resource development of power sector for more than last four decades. During the last four decades, RECIPMT has organized training programmes and workshops on Technical, Management, Finance & Accounts, HR, Information Technology and Energy Conservations relating to Power Generation, Transmission, Distribution and Renewable Sector.

RECIPMT is the nodal agency for coordination and implementation of the National Training Programmes for C&D Employees across the country, under Deen Dayal Upadhyay Gram Jyothi Yojana (DDUGJY) of Ministry of Power, GoI. Till 31st March 2020, RECIPMT organised training for **2,49,107** C&D categories of employees of various power utilities. RECIPMT has also organised 41016 no of training of power distribution franchisees during the 11th plan.

RECIPMT is also organising training programmes for the Executives of International Power Sector Organisations. So far, trained **1683** executives from **98** countries by organising **102** batches of training to International Power Sector Executives. The duration of trainings varies from 4-12 weeks.

Upto March 2020, the Institute has organized **2358** training programmes and **51,000** Engineers/Managers from various Power Utilities, like Generation, Transmission & Distribution Companies, Electricity Departments, Rural Electric Cooperatives, Regulatory Commissions, Rural Development Agencies, Banks, CPUs, etc., participated in the programmes.

PROGRAMMES FOR C&D CATEGORIES OF EMPLOYEES

INTERNATIONAL TRAINING PROGRAMMES (SPONSORED BY MINISTRY OF EXTERNAL AFFAIRS, GOI UNDER ITEC/SCAAP)

RECIPMT organizes International Training Programmes for executives working in international power sector utilities on state of art topics related to power utilities. These Training programmes are sponsored by Ministry of External Affairs (MEA) under International Technical and Economic Cooperation (ITEC) on technical topics covering all the areas of power sector such as, Power Generation, Transmission, Distribution, Renewable sources, Finance, Management, HR and other important topics related to power sector.

Due to COVID-19 Scenario all over the globe, RECIPMT has also submitted online based Training Programmes for the year 2020-21 and under approval of MEA. The training programmes under online and classroom based are as follows:

A. Online webinars

Sl. No.	Name of the Course	Duration (in weeks)	Period	
			From	To
1	Concepts to Commissioning of Solar Power Plants	6	07 Sept 2020	16 Oct 2020
2	Certificate Course in Electrical Power Management	6	28 Sept 2020	07 Nov 2020
3	Certificate Course in Electrical Power Management (Repeat)	6	07 Dec 2020	16 Jan 2021

B. Class room Training Programmes
(Pre-COVID proposal Submitted to ITEC, MEA in January 2020)

Sl. No.	Name of the Course	Duration (in weeks)	Period	
			From	To
1	Technical and Commercial Aspects of Hydro Power Plants (Including mini and micro Hydel Plants)	4	15 Jun 2020	10 Jul 2020
2	Design, Erection, Commissioning, O&M and protection of Distribution Sub-stations and lines	4	15 Jun 2020	10 Jul 2020
3	Planning and Management of Power Transmission System including HVDC	6	20 Jul 2020	28 Aug 2020
4	Planning and Management of Thermal Power Projects (Including sub critical and super critical plants)	6	20 Jul 2020	28 Aug 2020
5	Certificate Course in Power Distribution Management	6	07 Sep 2020	16 Oct 2020
6	Testing, Operation, Maintenance and Protection of EHV Substations	6	07 Sep 2020	16 Oct 2020
7	Concepts to Commissioning of Solar Power Plants	6	02 Nov 2020	11 Dec 2020
8	Rural Electrification & Rural Power Management	6	02 Nov 2020	11 Dec 2020
9	Alternate Energy Sources for Sustainable Power sector	6	04 Jan 2021	12 Feb 2021
10	Management of power utilities using information technology & computer based solutions	6	04 Jan 2021	12 Feb 2021
11	Financial Management, ARR filing and regulatory Practices for Power Utilities	4	22 Feb 2021	19 Mar 2021
12	Fixation of Tariff for Power Sector	4	22 Feb 2021	19 Mar 2021

LIFE AT RECIPMT

A beautiful and lush green campus of RECIPMT is spread over an area of around 14.3 acres fully equipped with facilities for meeting training needs of our valued Clients.

It is located on the National Highway No.44, at Aramgarh X Roads, Shivarampally, Hyderabad which is about 16 Kms away from the new Rajiv Gandhi International Airport, Shamshabad.

Landscape - Hostel

Conference Hall

Landscape-on way to Hostel

DEMONSTRATION FACILITIES & RECREATION

RECIPMT has developed an Energy Park equipped with 40kwp Rooftop Solar PV System, 1kwp Solar Street Lights, 5kwp Solar Water Pumping System and HVDS Resource Centre along with HVDS System for demonstration.

Distributionsystems Laboratory

Roof-Top Solar PV System

Demo HVDS System

Indoor games like Table Tennis, Chess and Caroms are available. Jogging Track of 1 km length, Badminton court and mini Gym are also available.

Mini-Gym

Tennis

Caroms

CLASS ROOMS

State of the art class rooms with advanced training facilities are available. The Institute has latest teaching aids as well as full-fledged Computer lab and Wi-Fi facility. It also has an air-conditioned Conference Hall with a seating capacity of 70 members.

Class Rooms

LIBRARY

RECIPMT Library is one of the specialized centers with about 5000 books and reference materials on the subjects like generation, transmission & distribution, energy efficiency and conservation, construction standards and specifications, management and information technology, electricity rules and laws, reforms and restructuring in power sector, etc. It subscribes to renowned journals on energy and power sector which caters to the information needs of the participants, in house faculty and guest

HOSTEL

RECIPT has got 36 air-conditioned rooms, 2 VIP Suites and air-conditioned dining hall. All the rooms are provided with solar hot water facility & Led TV. The Hostel is equipped with Wi-Fi facility.

Dining Hall

Hostel Room

Hostel Building

FACULTY MEMBERS – INTERNAL

S. No.	Name with Designation	Qualification	Specialization
1	Santosh Kumar Sahu, Director RECIPMT	M.Com., FICWA	30 Years of experience across Power Generation, Transmission & Distribution sector, financing and Disaster Management Ex-CEO, Facor Power and Ex-Director (Fin) in OHPC & GEDCO
2	G. Shankar, Additional Director (Sr.GM)	M.Sc. (Statistics), M. Tech	22 years of teaching experience in Power Distribution Sector which includes ICT Applications, Customer Management & Power Distribution Franchising
3	Dr. R. Mohd. Nafi, GM	M.A. (Eco.), M. Phil., Ph. D	20 years of experience in Power Sector Reforms & Rural Electrification Programmes
4	Aparup Paul, Faculty (DGM)	B.E. (Mech.), M.B.A.	19 years of experience in the area of Production, O & M of Thermal Power Plants and Energy Conservation.
5	Sudhir S Chopade, Faculty (DGM)	B.E. (Elec.), M. Tech.	19 years of experience in teaching and power plant training. Special interest includes Condition monitoring of HV equipment.
6	Ramesh Betha Dy.Manager	B.Tech.(Elect)	DDUGJY, Rural Electrification, Quality Assurance, Distribution Management
7	TSC Bosh Executive Director	B.E. (Elec.) & (Electronics)	DDUGJY, Rural Electrification, Quality Assurance, Monitoring and Evaluation, Distribution Management
8	G S Bhati Executive Director	B.E. (Elec.)	DDUGJY, Rural Electrification, Quality Assurance, Distribution Management
9	VK Singh, Executive Director	B.E. (Elec.)	Generation Projects – Financing and Appraisal
10	Fuzail Ahmed, Executive Director	B. Tech (Elect. Engg.)	Project Monitoring and Power Plant Familiarization; O&M of Transmission System; Construction and Quality Control Mechanism
11	RP Vaishnaw, Executive Director	B.Com., CA	Internal Auditing; Financing of Power Projects, Risk Management
12	JS Amitabh, Executive Director	B. Sc. (Hons), LLB, CS	Companies Act, 2013; CSR, Corporate Governance
13	G Veer Mahender, Chief General Manager	B.E. (Mech.), MBA, MDM	Entity Appraisal, Project Appraisal, Power Trading, Project Planning & Development, Development Economics and Strategic Management.
14	Salil Kumar, Chief General Manager	B. Tech	Vigilance for Organizational Excellence; Public/e-procurement; Preventive Vigilance

15	Taruna Gupta, Chief General Manager	MBA (Finance), BA (Hons) - Economics	Investments, Merchant Banking, Resource Mobilization, Internal Audit, International Cooperation & Development, CSR
16	N. Venkatesan, Chief General Manager	M. Tech., M.B.A.	23 years of experience in Project Formulation, Appraisal & Monitoring of Power Projects
17	N.K. Maurya, Chief General Manager	B. Com., AICWA	Financial Accounting, Auditing, Cost Accounting, Cost Auditing, Internal Audit, CERC-Tariff Fixation related topics
18	P.S. Hariharan, Chief General Manager	B. Tech (Mech.), M. Tech (Mech.), PGDC in IT & M	Project Investigation and Appraisal - Project Financing - Power generation projects
19	Saurabh Rastogi, Chief General Manager	B. Tech (Mech.)	Financing of Renewable Energy Projects (Wind / Solar / Biomass / Small Hydro)
20	S. Muralidharan, Chief General Manager	CA, BSc (Maths)	Corporate Taxation, Asset Liability Management (ALM) and Loan Recovery
21	R Anbalagan, Chief General Manager	MBA (Finance) and ICWA (Inter)	Entity Appraisal System for State and Private Sector Power Utilities - Critical Evaluation of Borrowers/Promoters
22	APS Manocha, Chief General Manager	LL. B (Professional)	Project Financing, Loan Documentation and Litigation relating to recovery
23	D.B. Londhe, Sr GM	B.E. (Electrical), MBA (Finance)	Hydroelectric Power Generation includes survey, investigation, construction, testing, commissioning, operation & maintenance
24	A. Veluchamy, Sr.GM	B.E., MBA, Chartered Engineer	Project Financing, Project Appraisals, AT&C Loss Reduction, Infrastructure Project Management Fixation of Tariff and Thermal Power Generation
25	Ch V Lakshmana Charyulu, GM	B.E. (Civil), MBA	19 years of experience in project financing, appraisal, monitoring and financial analysis
26	Jyothi Priya R Manger(Tech)	B.E., PGDC-TPPE	Thermal Power Generation and Project Appraisal
27	Hima Bindu Manger(Tech)	B.E.M.TECH	Project Financing, Loan Documentation

FACULTY MEMBERS – EXTERNAL

In addition to in house faculties, RECIPMT has empanelled subject experts from different areas of power sector all over India. The list below is indicative and is more extensive. As per the need of training programme, for sharing field experiences and success stories with the participants, Subject Expert from exact required area are invited to share direct practical experiences during the training programme.

Name of Guest Faculty	Specialization
SK Deo	Thermal Power Generation
C Sriprakash	Operation & Maintenance of Thermal Power Plants
IV Ramesh Kumar	Energy Conservation, Accounting & Audit in Thermal Power Stations
B. Jagadesh Prasad	Design of Hydro Power Plants
SV Ramana	Operation, Maintenance & Protection in Hydro Power Stations
KV Nageshwar Rao	R & M of Thermal Power Plants
K Venkata Rao	Operation of Thermal Power Plants and Trouble Shooting Aspects
D Sudharsan	O&M of Civil Works in Hydro Power Plants
Prof. P. Srinivasa Sarma	Quality Control of Civil Works in Power Generating Station
K Naidu	Gates & Hoists of Hydro Power Projects
K Tejaswara Rao	Civil Works of Infrastructure Facilities of Power Plant
R Biksham	Atomic Power Plant
M Gopala Rao	Power Transformer Operation and its Specification – Shunt Reactors
VVSRR Narasimha Rao	Erection, Testing and Commissioning of Power Transformers and Reactors
A Saiprasad Sarma	Availability based Tariff, Bus-bar arrangements and Reactive Power Compensation
J Dakshina Murthy	Protection in Transmission & Distribution and Reactive Power Compensation
S Ganesh Babu	Sub-Station Operation & Maintenance & Distribution Automation
G Mahesh Kumar	Power Transformers, Technical Loss Reduction & Power Factor Improvement
Tayi Krishna Rao	Transmission Tower Design and HVDC
K Ashok	Generation and Transmission Planning
L Parthasarathi	Transmission Planning & Load Flow Studies
Dr. TSR Murthy	Condition monitoring - Dissolved Gas & Furan Analysis and Residual life assessment
Dr. HS Kalsi	Circuit Breaker technologies & Erection and Testing
Dr. HS Jain	Gas Insulated Sub-Station
Dr. A Dharme	Demand Side Management, Transmission Congestion & Congestion Management
C Venkateswarulu	Protection System in Generation and Transmission
K Ramakrishnan	Hot line maintenance Techniques
M Srinivasulu	Hot line Maintenance of Transmission Lines & Sub-Stations
P Gopalakrishna	Sub-station Automation and Protection of Transmission lines
G Satyanarayana	Design, Erection and Commissioning of Gas Power Stations
S C Satyanarayana	O&M Shunt Reactors and Serious Capacitors
Ch Hanuman Rao	Transmission line Construction Management and Surveying
Y Pandhari Pande	Power Transformer Protection and Motor & Generator Protection
P Suryaprakash	Transmission Tower Design and Testing
P Srinivasa Rao	EHV Underground cables
Dr. G Mohan Rao	Gas Insulated Sub-stations
N Vijay Kumar	EHT Lines - Survey, Erection, Testing and Commissioning
K Murali Krishna	Transmission Lines & Sub-Stations

G Ramanaiah Chetty	Quality Control of EHV Substation
TV Rao	Design and Erection of Substation Structures
S Muzumdar	FACT System and Advanced Technologies
V Balaji	Billing and Settlement Code of Open Access & ABT – Payment Mechanism & Security
B Neelakantam	Transformer & Bus-Bar Protection & Fault Level Calculation
B Krishna Mohan Singh	Transmission Line Commissioning & Maintenance
Ch Narasimha Murthy	Technical Specification, Construction Standards and Load Forecasting
V Sudhakar	Load Forecast Techniques & Distribution System Planning
DS Sarma	Earthing & Safety Aspects, Technical & Commercial Reduction
L Radha Krishna	Energy Accounting & Audit and GIS and GPS Application in Distribution
P Narender Kumar	SCADA, Protection Aspects, Technical Loss Reduction, Sub-station Equipment & O&M
E M Chakravarthy	Metering Technologies, Protection in Distribution & SCADA
S Sunil Kumar	AT&C Losses, Metering Technologies, Billing and Collection
YS Rao	Theft & Pilferage of Electricity
Harsh Kumar Singh	IT orientation for Distribution Utilities
Atanu Das Gupta	SCADA, Automation & Smart Grid
P Krishna Reddy	Metering, Billing & Collection of Distribution
P Prasad	Communication Systems for Transmission
Phanindra Kumar	GIS & GPS Applications in Distribution
K KarunaSagar	Project Management and Safety Management
Dr. Savita	First Aid - with reference to Electrical Accidents
MR Pawar	Solar Tracking System
Dr. CVSN Murthy	Solar Insulation – Testing & Commissioning
T Venugopal	Best Practices of O&M of Solar PV Systems
ESS Sastry	Inverter Principles, Selection criterion for Grid Connected and off grid applications
N Ramchander	Solar Power Invertors & PV Systems
Guruswami Revana	Bio-mass, Geo-Thermal, Tidal & Wind Power Generation
G VenuMadhav	Wind Power Systems
DK Astik	Ind AS Accounting Standards and IFRS
DV Someswara Rao	PPA, Competitive Bidding & Generation Tariff
K Hariprasad	Preparation of Annual Revenue Requirements & Retail Tariff Fixation
K Jagadesh Reddy	Capital Budgeting, Costing and Cost Management
SL Narasimha Rao	Project Appraisal & Risk Analysis, Capital Budgeting
KV Ramesh	Tax Management
Smt. TS Maharani	Companies Act, CSR Implementation and Competitive Bidding guidelines
AV Rao	Companies Act and Corporate Governance
N Chandu Kumar	Budgeting, Strategic Financial Management and Financial Appraisal
KS Srinivas	EPF, ESI, Employee Compensation and Contract Labour Act
GB Sastry	Labour Laws, Compliance aspects and Procedures in dealing Court cases
AS Kumar	Customer Relation Management & Communication & Presentation Skill
C Vijayakumar	Motivating Self, Employee Motivation and Morale Development
Jagan Mohan Reddy	Leadership Skills and Communication
Dr. Sandhya Tiwari	Business Communications, Managing Change & Building Organizational Culture
PVN Srinivas	Work-Life Balance
K Srinivas	Time Management, Leadership Qualities, Positive Thinking & Attitude
Uday Shankar	Costing & Cost Management, Budgeting & Budgeting Control
D Murlidhar	Communication Skills, Leadership, Behavioral skills

HOW TO REGISTER

1. **Considering Post Covid Scenario**, the course fee for National Regular programme **on residential basis is Rs. 6500/day/ participant + 18% GST**. The course fee for **Non-Residential participant is Rs. 5500/day/ participant + 18% GST**. It is proposed to offer 20% Discount for 2 nominations (₹5200), 30% Discount for 3-4 participants (₹4550) and 40% Discount for 5 & more participants (₹3900).
2. The Programmes are mainly residential and conducted at RECIPMT Campus, Shivarampally, Hyderabad. However Considering COVID-19 Scenario, we have announced few online WEBINARS.
3. Residential Fees includes boarding and lodging in addition to tuition fees, courseware & other facilities, field visit, etc. whereas Non-Residential fee excludes Boarding and Lodging.
4. The participants have to make their own transport arrangements to reach RECIPMT Campus.
5. **Bulk orders and customised requirements from utilities are welcome in advance. We will be happy to discuss requirements and offer special discounts for such requirements on annual basis to utilities through special MOU mechanism on receiving request from utilities.**
6. The Course fee may be paid in advance by banker's cheque or demand draft drawn in favour of **“REC Institute of Power Management and Training”** payable at Hyderabad. The course fees can also be paid by NEFT/RTGS. The Bank Details of RECIPMT are as follows:

Name of the Bank	HDFC Bank Ltd.
Account No.	00210350000930
IFS Code	HDFC 0000021
MICR No.	500240002
Branch & Address	Lakdikapul Branch, Hyderabad
PAN	AAACR4512R
GSTIN	36AAACR4512R3Z0

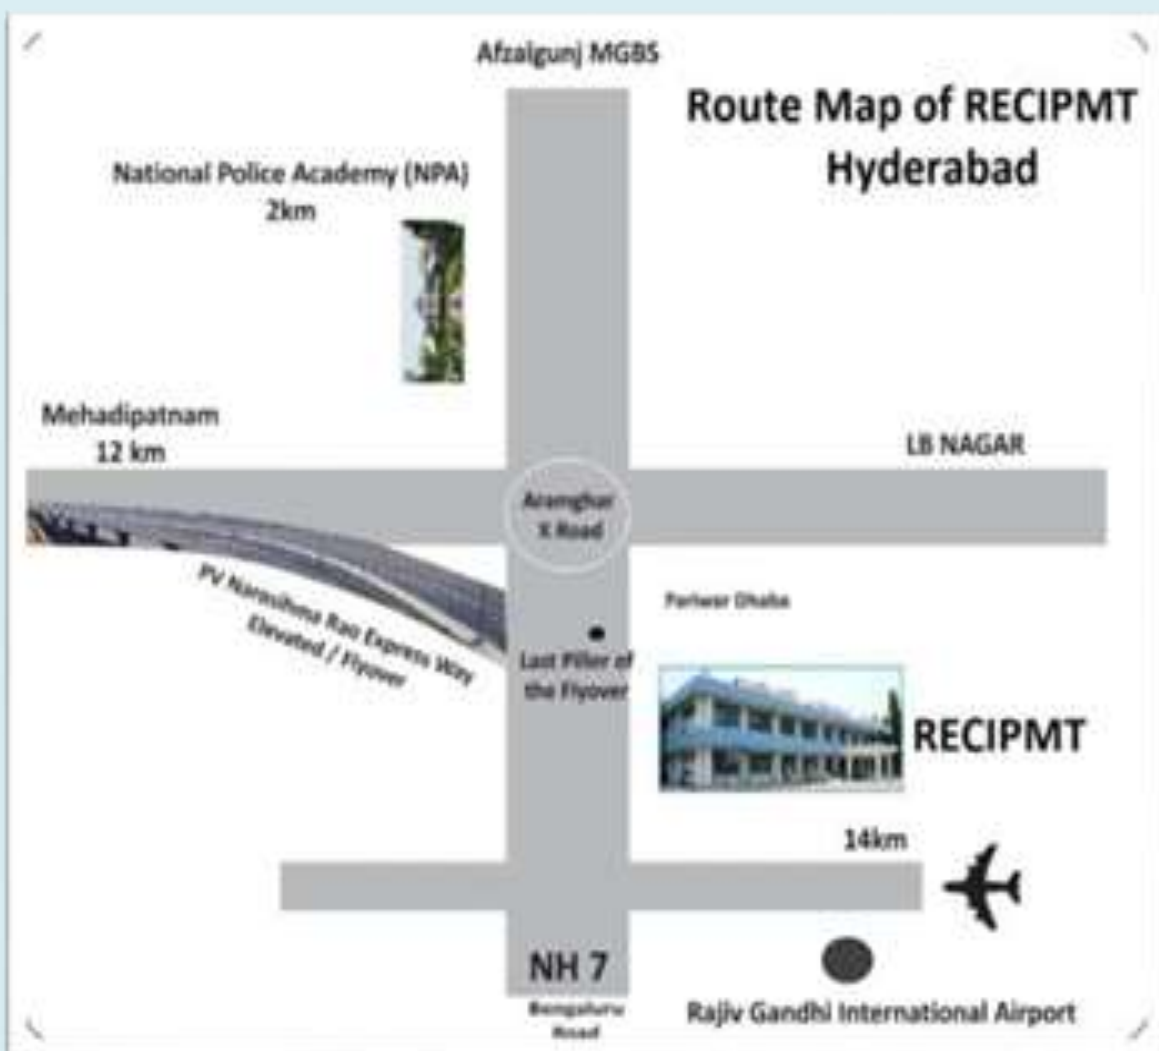

7. Names of the nominating officers may be sent to the Director, REC Institute of Power Management & Training (RECIPMT), Shivarampally, Aramghar X Roads, NPA Post, Hyderabad – 500052 along with the course fee. The nominations may also be send by E-mail: recipmt@gmail.com/recipmt@recl.in/recipmtrg@recl.in.

HOW TO REACH THE INSTITUTE

RECIPMT is well connected to Rajiv Gandhi International Airport and three major railway stations which are Secunderabad, Kachiguda and Hyderabad (Nampally).

RECIPMT is nearly 16 Km away from Airport as shown in map. Airport from ground level, radio cabs/ taxis are available 24 x7.

From Railway Stations, Pre-paid taxis/thr autos are available to reach the Institute located at Aramgarh Xroads on the National Highway No.7, towards Shamshabad Airport.

ABOUT HYDERABAD

Birla Temple

Ramoji Film City

Hyderabad, the capital of Telangana State, is a picturesque sprawling city located about 1700 kms south of New Delhi, India's capital and nearly 800 kms to east of Mumbai, the business capital of India. It is situated at an elevation of 540 meters above the sea level and enjoys pleasant climate almost throughout the year. The City has many majestic historical monuments, mosques and marvelous minarets and palaces. The world famous monument Charminar – an imposing structure with 53 meters high – is an attraction of the city. On the western outskirts of the city, the historical Golconda Fort is located. The Salar Jung Museum, the world's largest oneman collection, displays around 35,000 antiques and art objects.

The ancient city of Hyderabad was ruled by Nizam who was fascinated for pearls and attracted traders/craftsmen

to bring the best to this land. It is, therefore, is also known as pearl city. It is famous for Silver inlay work, popularly known as Bidri Ware. The Asia's biggest Film City i.e. Ramoji Film City is located about 30 kms away from city. The city also has one of the world's largest monolith statues of Lord Buddha, the incarnation of peace in the middle of Hussain Sagar Lake.

Magnificent Cyber Towers, housing IT companies symbolizes the grand entry of IT era in Hyderabad City.

Hyderabad Special attraction

- Hyderabadi Biryani
- Osmania Biscuits
- Pearls and Bangles

Golkonda Fort

Charminar
